Marp: Quick Setup And Use

What is marp?

- Marp is the ecosystem to write your presentation with plain Markdown.
  - `https://marp.app/` is its official website
  - `https://github.com/marp-team` is its source code

How to setup marp

- The easiest way for using marp is via docker
- `sudo docker pull marpteam/marp-cli`

How to use marp

- Write your own presentation markdown

- PDF:
  ```
  docker run -e MARP_USER="$(id -u):$(id -g)" --rm --init -v
  $PWD:/home/marp/app/ -e LANG=$LANG marpteam/marp-cli 1.md --pdf
  ```

- pptx:
  ```
  docker run -e MARP_USER="$(id -u):$(id -g)" --rm --init -v
  $PWD:/home/marp/app/ -e LANG=$LANG marpteam/marp-cli 1.md --
  pptx
  ```

> " You could write an alias in your `.bashrc` or `.zshrc` for easy calling marp: "

```
alias mymarp='docker run -e MARP_USER="$(id -u):$(id -g)" --rm --init -v $PWD:/home/marp/app/ -e LANG=$LANG marpteam/marp-cli'
```

Effects

Column 1	Column 2
Item 1	Item 2
Item 3	Item 4

Thanks!
